Pronunciation as respect

Must show: choose one primary comment first, then add supporting comments only if the narration has room. Text is lightly normalized for readability; usernames and profile details are intentionally omitted.

1	"it's not pronounced ube its pronounced u-be"
2	"Also the lesson is... when you encounter an unfamiliar word, don't assume how it's pronounced. That's a very myopic view. Ask them "hey how do you pronounce this?" It's really that simple"
3	"it's pronounced U-BE"
4	"GUYZZ IT'S PRONOUNCED OO-BEH NOT OO-BAY OR OOB"
5	"it's pronounced oo-be"

Editor note: crop or blur usernames and profile photos. Keep this comment bank nearby while assembling the layered 9:16 sequence.
