Botanical and technical accuracy

Must show: choose one primary comment first, then add supporting comments only if the narration has room. Text is lightly normalized for readability; usernames and profile details are intentionally omitted.

1	"ube is one of purple yam's variant, but it is not the purple yam"
2	"ube is like a purple yam or sweet potato, very popular in asian countries, especially the Phillipines ! It is delicious, great dessert flavor !"
3	"so only philippines use purple yam? purple yam does not automatically = philippines "
4	"ube is actually really easy to distinguish between sweet potato but taro and purple yam that's were the confusion starts."
5	"nope.ube is purple yam not purple sweet potato."

Editor note: crop or blur usernames and profile photos. Keep this comment bank nearby while assembling the layered 9:16 sequence.
